2009-2010 ENROLLMENT FORECAST

The Enrollment Forecast process is used to obtain 2009-2010 seats for Public School Choice. District staff no longer hold what was previously known as "Enrollment Roadshow" meetings. Principals will receive an enrollment packet from School Management Services containing enrollment projections for the 2009-2010 school year.

All traveling program enrollment projections, including PSC, are summarized on one-page for principals to review and sign.
